Joining and participating in our webinar

Do you need an account to use Zoom?

A Zoom account isn't required if you're joining a Zoom webinar as a participant. As we have invited you to our webinar, you can join as a participant without creating an account.

However, you'll need to download Zoom. From your phone or tablet download it from the app store, or on a computer download the latest version from https://zoom.us/download

We'd recommend doing this in advance so you aren't delayed joining the webinar.
